

# Mary Shelley's *Frankenstein*: Frankenstein and the Monster Wanted: Escaped Monster

1. In pairs or small groups, construct your own news report about the monster's escape from Frankenstein's laboratory.

You should include:

- A detailed description of the monster
- An account of his crimes: the murders of Clerval, William, and Elizabeth
- Firsthand witness accounts of his encounters with Felix, the villagers or the girl he rescues

2. Present your report to the class, either with a PowerPoint presentation, as a news report (online or print), or in a dramatised role play of a police officer or news reporter, crossing to live witnesses.
