# Built for IT Administrators

To help staff at your school or college use ClickView, our solution integrates with many of the UK's most popular VLE and LMS systems, giving educators access to our educational video content in a familiar context. It also comes with features like Local Cache and Single Sign-On integration.

Log in

Easily access ClickView using your existing credentials

ClickView can integrate with your Single Sign-On identity provider, ensuring staff don't need to remember multiple passwords.

ClickView Local Cache

With Local Cache, even when you are using a web browser to access ClickView, videos in the highest quality will be served over your local network, giving students the best viewing experience while saving internet bandwidth!
